

I enjoy and depend on K-LOVE, KIXE and JPR as radio stations, which are translated over FM. If these stations were no longer available, many people in the communities they serve would be hugely dissapointed, and have already decided to fight FM being replaced by LPFM. The service K-LOVE especially provides is very important for encouragement, helpful advice, and great music - it is a huge benefit to families! Please don't replace FM translators!
Thank you.
